AHC
(aphec-ahc@korea.kr)

Objective

The training intends to serve as a platform to raise awareness on the issues and challenges with adulterated pharmaceutical products and its impact on patient safety with real-life examples. The participants will gain understanding on supply chain weakness, strategic approaches and best practices to mitigate vulnerability in supply chain, particularly to GDP, Track and Trace and Internet Sales. The training will also expose participants to “GDP in action” through half-day site visit.

Training Highlights

- Latest updates from industry, government and non-governmental organization experts in Good Distribution Practice (GDP), Track and Trace and Internet Sales of Pharmaceuticals.
- Site visit to a leading distributor in Malaysia
- Updates on the latest available technology
- Case studies

Target Audience

Regulators, Industry stakeholders, Academia, Pharmaceutical distributors, Regulatory consultants, etc. who are involved in supply chain management and logistics for medical products

Programme

Day 1

- Opening Ceremony
- Good Distribution Practice (GDP) Toolkit
- Framework for GDP Regulatory Trends
- Challenges and Strategies in Cold Chain and Supply Chain Integrity
- Experience and Challenges in Implementation of GDP

Day 2

- Track and Trace Toolkit
- Traceability Policy Requirements
- Global Standards for Track and Trace
- Global Regulatory Evolution for Product Serialization and Traceability
- APEC Supply Chain Internet Sales Toolkit
- Online Sales of Medical Products
- Global Internet Pharmacy Best Practices
- How to Combat Illegal Internet Sales of Medical Products
- Existing Industry Initiatives to Promote Safe Medicines

Day 3

- Site Visit to Zuellig Pharma (leading multinational pharmaceutical distributor)
- Case Study Exercises
- Closing Ceremony
