

GLOBAL SUPPLY CHAIN SECURITY OF MEDICAL PRODUCTS: GOOD DISTRIBUTION PRACTICE & TRACK AND TRACE

11th & 12th March 2021
09:00am – 12:00noon

(Malaysia/Singapore Time) (+8 hours GMT)

OBJECTIVES

The webinar will discuss the issues, challenges and current trends in supply chain security of medical products from a global perspective, as well as shed some light on the emerging technologies and future developments in this area.

WHO SHOULD ATTEND

Regulators, pharmaceutical industry personnel, healthcare workers, enforcement officers, community pharmacists and those involved in the supply chain and logistics of medical products.
